Dear Parent:

If your son will require medication in school during the 2018/2019 school year, please have his doctor complete the attached form at your son's annual physical. The form must be completed for all rescue medication (i.e. inhalers, epi-pens, glucagon) or other medication deemed medically necessary during the school day.

Medication orders must be updated annually or when there is a change in the medication regime. A summary of the school's medication policy can be found in the handbook.

If your child has had a rescue medication in the past and it is deemed no longer necessary, please include a note stating such attached to their physical.

Please contact the health office at (516) 742-5555 x 524 if you have any questions or concerns.

Thank you in advance.

Sincerely yours,

Kathie Riedman RN & Jean Drumm RN

To Be Completed By Parent

I give permission for the above medication to be administered to my child as ordered by my health care provider. I will furnish the medication in the original pharmacy container, properly labeled with directions and dosage, or original over-the-counter medication container/packaging with my child's name on it. I understand that medication normally given at school during a delayed opening or early dismissal will need to be given at home.

Self-Administer/Self Carry (for inhalers, Epi Pen or insulin)

Parent permission and provider consent is required for students to self-administer and self-carry medication (inhalers, Epi Pen or insulin). Students with this designation are considered independent in taking their medication at school and require no supervision by the nurse. Parents assume responsibility for ensuring that their child is carrying and taking their medication as ordered. Schools may revoke the self-carry/ self-administer privilege if the student proves to be irresponsible or incapable. To request this option please sign below:
